# Shri Ram Mudra (SRM) – Whitepaper

**Version 1.0 | May 2025** 

#### 1. Introduction

**Shri Ram Mudra (SRM)** is a decentralized BEP-20 cryptocurrency token deployed on the Binance Smart Chain (BSC), inspired by the divine principles of truth, justice, and righteousness symbolized by Lord Shri Ram. The token aims to create a spiritually motivated and community-driven digital ecosystem.

#### 2. Token Overview

Property	Value		
Token Name	Shri Ram Mudra		
Symbol	SRM		
Blockchain	Binance Smart Chain (BSC)		
Token Standard	BEP-20 (ERC-20 Compatible)		
Total Max Supply	1,000,000,000 SRM		
Initial Supply	100,000,000 SRM		
Decimals	18		
Tax Rate	5% on transfers		

# 3. Key Features

## Ownership Control

The contract includes full ownership management. The deployer can transfer or renounce ownership as needed for decentralization.

## 5% Transfer Tax

A flat 5% tax is applied on all token transfers (excluding exempted addresses). The taxed amount is sent to a designated wallet for development, liquidity, or community purposes.

## Minting with Cap

The owner can mint additional tokens up to a strict cap of **1 billion SRM**.

## 🖖 Token Burning

Any holder can permanently remove SRM tokens from circulation by burning them, reducing total supply and potentially increasing scarcity.

#### Pausable Transfers

The owner can pause all token transfers in case of emergency or planned upgrades, ensuring enhanced control and security.

#### Fee Exemptions

Specific addresses can be excluded from the transfer tax for operational flexibility.

# 4. Token Utility

SRM aims to serve both as:

- A spiritual symbol of unity and virtue.
- A **utility token** for upcoming platforms in the Shri Ram Mudra ecosystem (e.g., donations, digital goods, NFT offerings, and more).

# 5. Roadmap
